

## In Vivo

By Manisha Bharadia

When you measure the being of another  
with the ruler of your own assumptions

don't expect accuracy

When you create theories of their actions  
from extrapolations of previous data

don't expect a trendline

(People aren't science experiments)

---

**Manisha Bharadia is a third-year medical student at the University of Alberta. She is also the founder and senior curator of *OBLIQUITY* – a Canadian humanities and medicine workshop series that seeks to highlight the essential interconnectedness of the arts and sciences ([obliquity13.com](http://obliquity13.com)). Bharadia's most recent publications Cinnamon (CMAJ Humanities) and Endurance (Murmurs) explore the intersections of familial roles, autonomy and duty.**
